techniques to learn

1. asking good questions
by reading selected articles from S.N. and learning to ask questions.

In GENDO we use artificial problems to focus on the technique. in "Real" life is much more difficult to formulate questions.

TO QUESTION IS DIVINE!

two types of meetings
- small groups 3 or 4 (without instructor)
- entire class

big classes never talk about the content of the small-group meetings but attend to the process - How do we enhance the process

may talk about your content but not others

objectives ARE ① clarity
② objectivity"
~~③ change~~ ③ place ④ happiness ⑤ health

© 1989 The Center For Applied Epistemology

True objectivity is reached only when you realize—there's no such "thing".

gerado

It's OK to be a weasil.

A MAJOR DISCOVERY

It's not so much the "quality" of the questions— it's quantity—how many? Teach students to formulate the most questions

---

Homework #1 study one selected article from S.M. make a list of all the questions you can think of. the longest list gets $100.

gerado

as a surprise - give $100 to creator of longest list

money isn't the issue
what matters is a feeling of security

what a person accepts for security differs from one to another person.

what's required to engender that feeling differs from person to person

50.2
4.344
4.69
wov 29

a feeling of security is related to a person's analysis (intellectual) (evaluation) of the perceptions

Its only after the initial impact of sense impressions

© 1989 The Center For Applied Epistemology

that "things" get sorted out, other aspects combined, into what we call reality (or better your version of reality)

ACT THIS SEVERAL WAYS

"People often talk as though they believe that their emotions are more basic, more real than more fun mere dry intellectual analysis."

HOW CAN YOU TELL AN AMERICAN?

emotions need "something" to work on. That growing black speck in the distance may be a meal or a predator. as the dot grows in size and complexity, an ongoing analysis of data until a decision is made to become fearful and run or lustfully advancing the emotions are always based upon previous analysis. the language machine is the instrument of evolution analysis

gendo

the right words in the right order (probably) won't (in and of itself) cause the millenium. (maybe it will) BUT if we remove the only block ...

the stupid ~~words~~ language, sloppily designed probably will, in and of itself, prevent the millenium.

gendo phrases

silence
the language machine
~~meat organ~~
don't believe everything you hear your I'm say

gendo

tenths of a second.

Gendo is a form of psychotechnology

© 1989 The Center For Applied Epistemology

The difficulty is in stating the problem empoweringly / correctly / properly / etc.

When the problem is stated properly – it disappears

It ceases being a problem and becomes part of an ongoing process of growth.

"Empowerment" – the word's been around several years now – it's beginning to take on some meaning.

a "problem" is an event in the domain of language.

gendo

gendo rule #2: don't believe everything you hear your language machine say.

gendo rule #1: the map is not the territory.

If you examine behavior of apes, you'll notice that only it's linguistic behavior differs significantly from other apes. What's new is writing – extend storage furthered with computers.

~~sex~~

war

Structure of class #1

in gendo.

gendo

- preface/context/sales pitch
- surgeon's story
- the danger of unconscious ass.
- inhibit the most obvious (simple) logical deductions
- as long as erroneous ass. remain unconscious - there is no solution
- it's his mother
- I've told this story to 100s of people
- no one has ever gotten it
- some people have heard it before and still fall for it. (women)
- but this as a ~~trivial~~ example of ~~instance~~ (instance) unconscious assumptions with a word that almost never arises

---

- there's another word that we use all the time and is used on us all the time.
- its ~~THE~~ most dangerous 3-letter word in English.
- DO THE QUIZ

get agreement that unconscious assumptions can be dangerous and that particular word have assumptions already attached to its tricks.

(OVER)

6634

lesson 1 (continued)

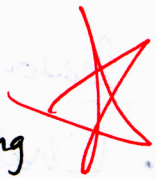

- THE QUIZ:

  What is THE most dangerous three-letter word in English? You have three guesses.

  1. _____
  2. _____
  3. _____

- THE answer is "THE"
- It's one of the most common words in English — 1 in 50 in "intelligent" written English.
- It's one of those little unnoticed words that go right by without much (or even without any) of the most often time.
- Dictionary def:
- last century historian wrote books called "The History of New England." No historian in his right mind today would even title his book that way. He'd call it "A history ____."
- You say it, "The ____"
  and write "A ____"

lesson 1 (cont.)

- Notice the different physical sensations accompanying the different utterances
- One feels closed/cramped/final/etc.
  One feels open/expansive/~~temporary~~/provisional/etc.
- "The" ~~guarantees~~ carries with it an assumption of exclusivity/etc.
- a ~~false~~ sense of security and understanding that is often premature, unwarranted, and dangerous, ~~to~~ threatening our ability to think clearly on the few occasions it is necessary.
- there are several other words that go with the that are particularly dangerous — can you think of them — write them on the sheet.

the problem is slow elevators.
what other ways of stating the problem.
People complain about slow elevators

the words are
answer/solution
truth
reason
"way it is."

lesson 1 (cont.)

- What's the reason John Kennedy died?
  1. he quit breathing and his heart stopped
  2. brain hemorrage
  3. bullet in head
  4. Lee Harvey Oswald
  5. politics
  6. history
  7. etc..

J Smelo

- Map is not territory
- The Answer
  - is ~~2+2~~ 4 the answer to 2+2?
  - is 10 the answer to 2+2?

4 is the answer

2+2=4
2+2=10

- no such thing as The answer
- must qualify - the answer I choose to accept - with emphasis on "I".

lesson 1 (cont.)

- Ask the student this question:

  Q. "What do you do if you're looking for the answer and you find it?"

  A. You stop looking.

- More stuff on "answer".

  leads

- truth – what kinds of occasions require the use of the word truth?
  - – is he telling the truth
  - – is it the truth
  - – that's the truth

  truth refers to not to situations
  " " " to statements
  statements are said to be T or F.

- And because of 2-valued logic (another problem of English) we tend to impose either/or on situation.
  - if statement A is true, then B must be false
  - more than one map for any given territory
    topo / street

6706 letter to ? Linus Paulings

Since 1967 I've been reading, thinking, writing, etc. on and around the subjects of language, "consciousness, creativity, problem-solving, etc. (see attached ~~bibliography~~)

During the past several months I've stumbled across an idea/theory/ that, if it's not crazy, could change the course of history, save Earth, etc.

It's develop a sort of living viruses (an ~~intelligent~~ virus anti-stupid virus.

the dynamics of language can be viewed as a complex structure

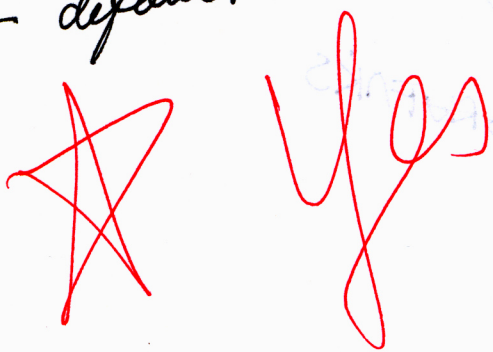

Imagine a large physical structure of beams, cables bolt + nuts. ~~So~~ there may be ~~so~~ some particular bolt somewhere that, if ~~loosen~~ removed would

allow the collapse of a huge portion of the structure. there may also be other areas where you can removed lots of stuff and not seriously weaken the overall structure.

My studies reveal that language is not unlike the structure of the universe. Linguists have discovered 13 one words that, if removed, weakens a whole lot of dogmatically held nonsense opinions.

It takes about 20 min for the injection — then a booster in about 2 wks really speeds things up.

Goffman/Doug/etc talk about "artificial" life. Some critize them and say it doesn't apply to "real" life. However, ~~well~~ most of the time we don't deal with "reality" — we deal with our analysis of or experience — a staging / staged artifice subject to the complexities of Goffman/Doug.

What is the (linguistic?) raw material out of which ideas/religions/worldviews/etc are built?

Not letters!

but "~~the~~ FONZ

I read it twice - and am
intrigued by the implication
I'll probably have to read it a few
more times.
OK I invite other stuff in here,
Mike, Mark, Glenn John
A.O, D.Z. Brian
Stephen, JR, etc.
dealing with an analysis
of vision and its relation
to "mind."
It's not an easy chapter
but I think it does stand
on its own, apart from the previous
5 chapters.

Our society confused "spiritual" and survival — because work is arranged as it is. If work consisted of a sort of draft to "handle" the basics of civilization - food, energy, comm etc. housing — then we'd have to find "meaning" in activities unrelated to mere survival / exploration, learning, creativity

Enet

I feel that its not only your responsibility
but your duty to clear this up.
I certainly allowed you all
the time to handled it.
I find this situation ~~pounded~~ uncomfortable
But it must be much ~~more~~
~~for ya~~ more damaging to you,
having to maintain this negative
attitude. I've always acted only with an eye to your growth. Again
You can take the initiative to live & let live
live more positively or you can
hold a grudge. If you don't stop,
I will. And if I do it, you
lose power. and personal integrity.
(what little you have)
